01 · THE IDEA

Every café you love. One monthly pass.

Lahore Coffee Club is a monthly coffee membership. Members pay once and drink across the city's best independent cafés. Cafés get regulars, guaranteed cups and a payout every month.

Lahori first

The name leads in Urdu. The mark is built from the city's old bricks, laid in a circle.

Quiet, not loud

Cream and espresso do most of the work. Colour is a hint, never a shout.

Made for regulars

A month goes round like the ring. One brick, one cup.

02 · VOICE

Warm, short, specific. A little Lahori.

WE SOUND LIKE A REGULAR

Short sentences. Concrete benefits. Sentence case everywhere. One exclamation mark per screen, at most. Real café names, real areas, real prices.

LINES WE'D WRITE

"Pick your places, pick your cups."

"No cups used yet. Your first one is waiting."

"Kiln & Bean is quiet right now."

"We send you regulars. You get paid monthly."

WORDS WE DON'T USE

PRIMARY WORDMARK

03 · LOGO

The wordmark

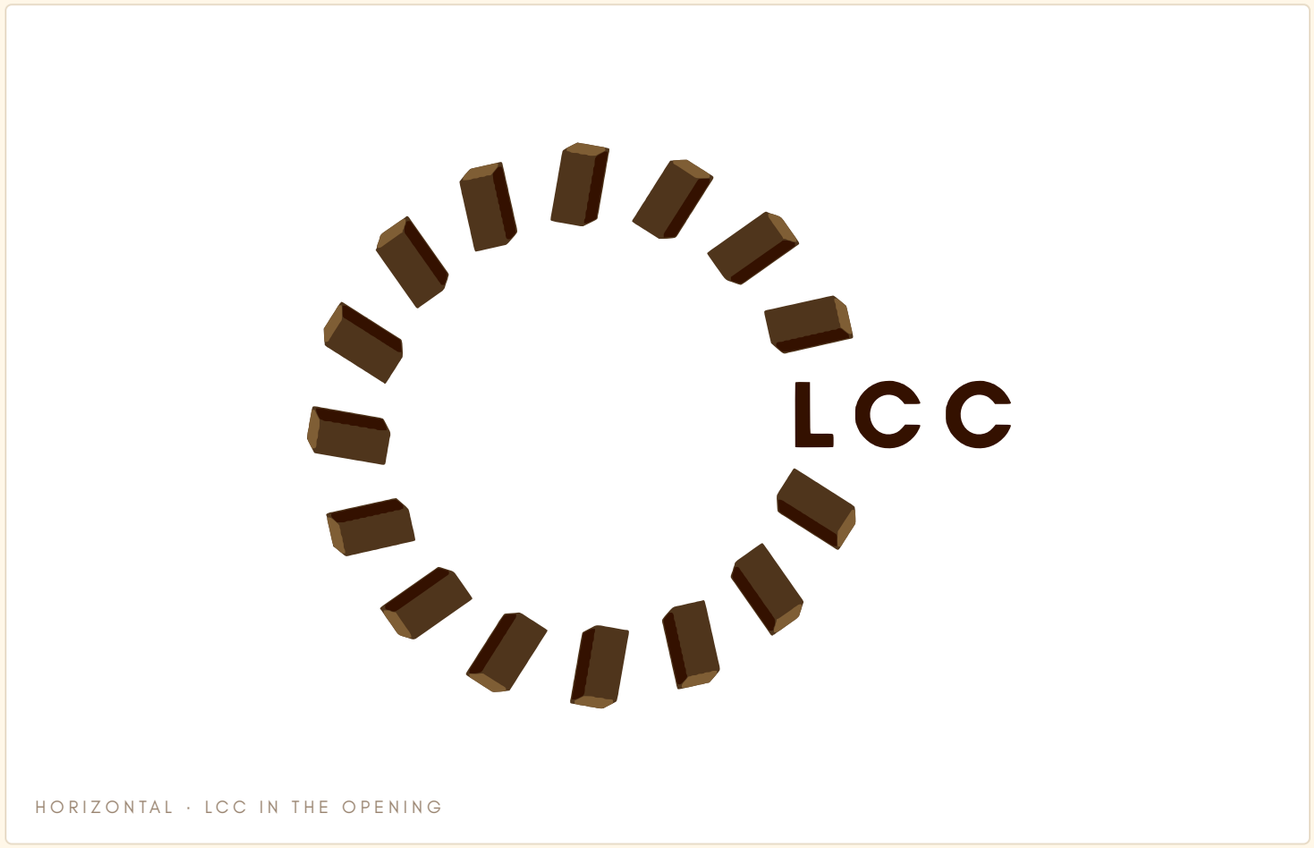

Our primary logo. لاہور leads in Urdu and carries the identity. COFFEE CLUB sits centred underneath in wide-tracked capitals, wider than the Urdu, so the pair forms a calm, steady base.

Use it wherever the brand is introduced: the landing page, splash screen, packaging, billboards and the deck cover. Never retype it. Always use the master artwork.

03 · LOGO

The monogram

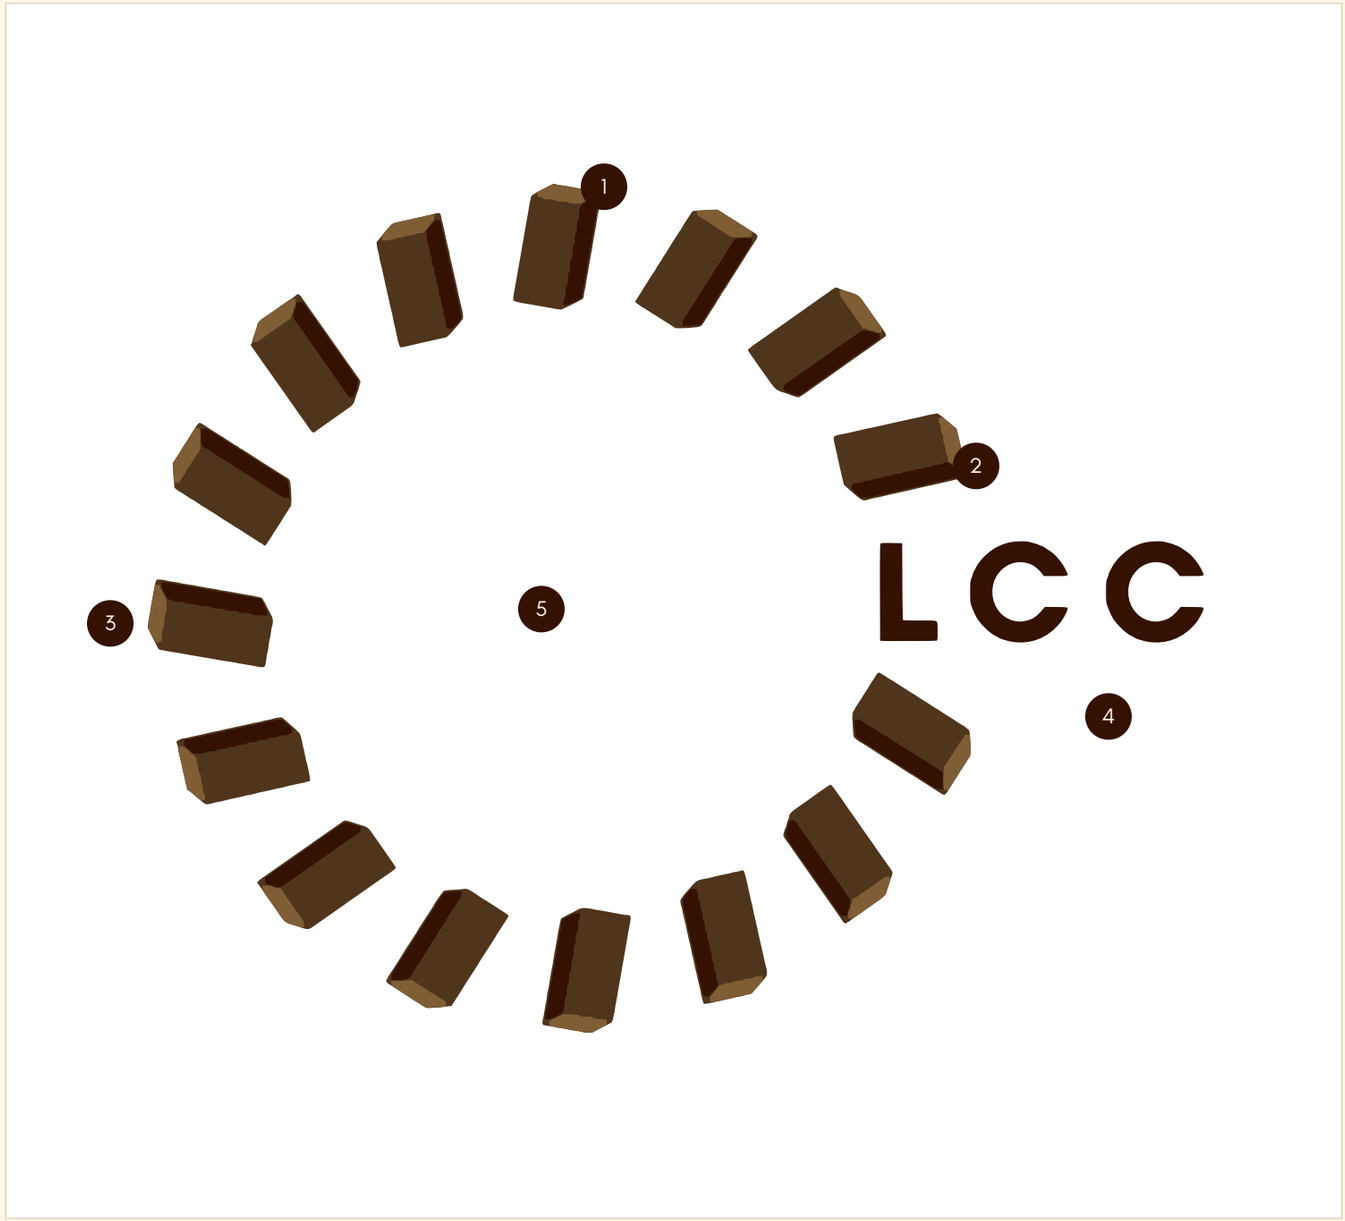

A ring of fifteen bricks with an opening on the right, and LCC. Use it where space is small or the brand is already known: the app, the cup sleeve, social avatars.

HORIZONTAL · LCC IN THE OPENING

APP ICON · LCC CENTRED

Anatomy

1 **Fifteen bricks**

Lahore is a city of brick: the walled city, the gates, the havelis. Each brick is one regular visit.

2 **The opening**

One brick is missing at three o’clock. The ring becomes a C for coffee and club.

3 **Lit from above**

Every brick has a face, a side and a top. Three tones give quiet depth without shadows.

4 **LCC**

Bold geometric capitals, tracked out. In the icon, they move to the centre.

5 **The empty centre**

Room for a cup count, a QR code or nothing at all.

03 · LOGO

Colour variations

Cream and espresso first. Black and white when only one colour is possible. Caramel and cinnamon backgrounds are for special moments.

03 · LOGO

Clear space and minimum size

Keep a margin of **x** on every side, where x is the height of the C in COFFEE. Nothing else enters that space.

Smallest sizes for each lockup. Below 32 px, LCC can't be read, so use the ring on its own (favicons, map pins).
